

Golden Eagle FlightPrep® Software

The Golden Eagle FlightPrep® software is a FREE advanced windows based flight planning program that provides access to the CSC DUATS service via a graphical interface. Golden Eagle FlightPrep®'s many features include graphic route depiction with integrated weather overlay, flight profile, "always current" overlaid TFRs, rich flight planning charts, and a choice of a local and online flight planner.

For a Free CD copy of the Golden Eagle FlightPrep® program call: CSC DUATS at 1-800-345-3828 or email to duats@duats.com or download a copy from www.duats.com by selecting "Golden Eagle and Cirrus Information page" from the DUATS home page and selecting the "FREE Download now" link.

Installing the Golden Eagle FlightPrep® Program

From CD:

1. To install the product, insert the CD into your system. It should auto-start the installation.
2. You may accept all the installation defaults.
3. When the installation completes, launch the program from the Golden Eagle icon on your desktop or from the **Start Programs Golden Eagle** menu command.

If the program does not auto-start, use Internet Explorer to open your CD ROM drive and double-click the setup.exe program.

From Download:

1. After the download, double-click the setup.exe program.
2. You may accept all the installation defaults.
3. When the installation completes, launch the program from the Golden Eagle icon on your desktop or from the **Start Programs Golden Eagle** menu command.

Program Registration

The first time you launch the program, a registration form collects information to help keep your program current.

1. Please complete the registration form. Ensure the email address you provide permits you to receive an email from FlightPrep® containing your activation key.
2. Click **Register** and you will immediately receive a confirmation email with a link to click to activate the program.
3. Now, check your email for FlightPrep®'s registration message.
4. Open the registration email and click the included link to complete the registration process.
5. When you click the link, FlightPrep® will activate your software on a web page.
6. Once you see the message that your activation is complete, close your browser.
7. FlightPrep® will email you a copy of the activation code for future reference.
8. Program registration and software activation are now complete.

If you attempted to register your GoldenEagle FlightPrep® software and did not receive any emails from FlightPrep®;

1. Verify you can receive email from "support@flightprep.com"
2. Check your email "SPAM" folder. Some ISPs identify your registration emails as SPAM. Speak with your ISP's Technical Support group for their instructions on how to fix this issue.

Initial Setup

To customize your program you need to confirm your pilot information, configure your DUATS access preference, and define an aircraft. The pilot information setup is reached by the menu option **Edit Pilot**. If you completed the registration function, portions of this form will be pre-filled for you.

Please retain your DUATS Newsletters for future reference.

DUATS...Still the Fastest Way into the Air and Still Free

Download the latest Golden Eagle FlightPrep software from FlightPrep.com or call for a free disk at 1-800-345-3828 or 1-703-818-5404 or e-mail duats@duats.com

Data line: 800-767-9989

Tech Support: 800-345-3828 press number 4

FAX: 703-818-4723

Internet Telnet: direct.duats.com

Internet Web: <http://www.duats.com> or <http://131.131.7.104>

Secure Web: <https://www.duats.com>

continued from front

Be sure to insert your DUATS access code and password. Optionally, you may specify your flightprep.com account data to automate that login. Press **OK** to save your work.

Set Up Your Aircraft Profile

You can modify an existing aircraft template or create your own from scratch. Aircraft definition is reached by the **Edit Aircraft** menu option.

If you wish to modify a generic model, highlight the entry you wish to change and click **Edit**.

Fill out the information in the **General** tab. Be sure to enter your "N-number." Complete the **Performance** tab to confirm climb, cruise and descent values. Weight and balance is also available by entering "**Moment Arm**" and "**CG Envelope**". (See DUAT Flyers 65 and 66 on Weight and Balance)

To create an aircraft not listed click **Add**.

First Flight Planning Session

1. Click on the **Chart** tab in the upper left corner of the main display area.
2. Enter **Dept** and **Dest** using either 3 or 4 characters
3. Using **Routing Type** select your routing method.
4. Select **Properties** button to confirm your choice of pilot, aircraft, departure time, cruise altitude, and fuel. Press **Ok** to save your work.
5. Press the **Plan It** button to plan your flight.

Connectivity and Other Administrative Features are in DUATS Setup

Select **Setup** at the bottom of the "DUATS" tab in the left hand column, or select **Preferences** under **Edit**.
