DUATS is under threat of FAA  
Cancellation

[Click Here](#) for more information and what you can do to help

- **Innovation** -The DUAT program has been a competitive program since the late eighties. The DUAT providers that are selected by the FAA are paid for by the FAA based strictly on usage by the pilots. Both vendors are in competition for market share and to increase usage. Adding new and innovative technology is the best way to do it. The DUAT program has brought new technology throughout the years from being the first weather service on the Internet to providing support for today's mobile devices. All of this has been bought to you the pilot with **no cost to you** or the FAA!! The innovation has been a product of a competitive marketplace.

- **3rd party providers**

Most third party providers use the DUATS vendors behind the scenes to provide the pilot with aviation weather and/or flight plan filing. The DUATS vendors have made it easy and free for those 3rd party providers to implement their own user interfaces to support the pilot community. The presence of a strong 3rd party market gives the pilots more choices in obtaining briefing and flight planning that fit their needs. Without the DUATS vendors, many 3rd party providers may go out of business or have to increase any charges for usage as they will have to look for alternate sources of weather, Notams and flight plan filing access.

Please remember to visit the link shown in the screenshot above for a list of more benefits and details on how to help.

## New Feature - VFR Flight Plan Closure Reminders sent to your Mobile Phone !!

This new feature will allow you to request an email or text reminder to be sent to your mobile device when your VFR flight plan is due to be closed. Once you receive the reminder, you will be able to close it simply by replying to your email .

## DUATS needs your Help!!

CSC DUATS is under threat of FAA cancellation. Please go to our web page at [www.duats.com](http://www.duats.com) and click on the link shown in the screenshot above. This link will tell you how you can help save DUATS by contacting your Senator and Congressman as well as other flying organizations. The link will also provide addresses as well as suggested form letters that you can use to contact your representatives and organizations.

### Benefits of a continuing DUATS program

- **Choice of free WX and flight planning providers** - The DUATs program is the only program available to the pilot community that is built to strict FAA specifications, tested continuously by the FAA and paid for fully by the FAA. Currently, the FAA awarded DUATS contracts to two vendors - CSC and DTC. Briefings obtained from DUATs vendors are considered to have fully met your preflight briefing requirements and are recorded to provide proof if needed.

## File FAA Domestic Flight Plan

**ATTENTION IFR FILERS:** If any part of your route will enter Canadian or Mexican Airspace you must file using the [ICAO form](#).

[DC SFRA Flight Plans Help](#) | [Attention DVFR Filers](#)

1. Type ? VFR	2. Aircraft Identification ? N12345	3. Aircraft Type ? / Special Equipment ? c182 G - GPS, transponder, mode C	Number of Aircraft ? 1 <input type="checkbox"/> Heavy ?
4. True Airspeed (KTS) ? 120	5. Departure Point ? IAD	6. Proposed Departure Time ? 60 Minutes from now	7. Cruising Altitude ? 120
8. Route of Flight ? <a href="#">Lookup FAA Preferred Routes</a> <input type="text"/> <input type="button" value="Get DUATS Routes"/> <input type="button" value="Get CDR Routes"/>			
9. Destination ? RIC	10. Est. Time Enroute ? 0200 (HHMM)	11. Remarks ? <input type="text"/>	
12. Fuel on Board ? 0300 (HHMM)	13. Alternate Airport ? <input type="text"/>	14. Pilot Name and Address: ? CSC . DUATS Address: 14120 Newbrook Drive, Chantilly, VA Phone: 555 555 1212	Aircraft Home Base: ? iad 15. Number Aboard ? 2
16. Color of Aircraft ? W	17. Destination Contact (optional) Name: <input type="text"/> Phone: <input type="text"/>		

*DUATS can send you an Email/Text Notification on acknowledgment or change of your flight plan*

*Email/Text Message Notifications of*

Flight Plan Acknowledgment (IFR/VFR)

ATC Route Change Notification (IFR Only)

VFR Flight Plan Closure Reminder (VFR Only)

Email:

SMS:

*(continued from front)*

To use this new feature, choose "FAA Domestic" under the "file a flight plan" selection from the pull down menu under the "Flight Planning" tab at the top of the web page. At the bottom of the Domestic Flight plan form, you will see a check box (see above screenshot) for "IFR Flight Plan Closure Reminder (VFR Only)". After checking this box, you will need to select either an email address or an SMS (text) message option. If you select the SMS option, you will need to enter your cell phone number and select the carrier from the dropdown list located to the right of the phone number. In the above example, Cingular was selected from the list which includes all major carriers.

Once you have successfully filed the flight plan, you will now get a email/text message sent to your mobile device 15 minutes before your arrival time. Follow the directions in the email/text message on how to reply and close the flight plan directly from you mobile device. You do not have to reply to the message immediately. You choose what time to reply to close your flight plan. If you have not closed the flight plan within 30 minutes of the message, another courtesy message will be sent.
